About This Index

Sometime in the 1920s, the contracting firm of Mosier & Summers published a souvenir volume depicting buildings that they erected in the Buffalo area. We compiled a table of contents of the images in that book. It is not digitized or online. The link shows you a list of owning libraries.

Oversize NA737 .M67 F48
A few of the buildings constructed by Mosier & Summers, 1266 Seneca Street, Buffalo, N.Y.
Buffalo : J.I. Day, [192-?]

This book is unpaginated, so we are unable to provide page numbers for specific images. We listed them in the order in which they appear in the book.

Unless otherwise indicated, all views are of building exteriors and all addresses are in the City of Buffalo.

Book has a mix of photographs and artists' conceptions.
